

ADAIRE BALTZER

Workflow Designer | Systems & Implementation | K-12 EdTech | Operations

adairebaltzer.work@gmail.com | Remote / Southeastern U.S. | [linkedin.com/in/adaire-baltzer](https://www.linkedin.com/in/adaire-baltzer) | github.com/adaire-b

SUMMARY

Systems-minded workflow designer with experience across operations, K-12 education, implementation support, documentation, and process improvement. Builds practical systems that simplify complex work, improve adoption, and help people focus on decisions rather than repetitive process.

CORE COMPETENCIES

Implementation & Enablement: implementation support, onboarding, training, technical documentation, change management

Operations & Analysis: workflow design, process improvement, data analysis, reporting, stakeholder communication

Education Domain: MTSS, intervention workflows, Science of Reading/LETRS, K-12 assessment, IEP compliance

Technology: Google Workspace, Google Apps Script, Microsoft Office, Canvas, Seesaw, Acadience ALO, i-Ready, Lexia, Embrace IEP, PowerSchool, Adobe Creative Suite, Canva, Claude

EXPERIENCE

Special Education Teacher & Case Manager

Dec 2019 - Jun 2026

Iron County School District, Enoch Elementary | Enoch, UT

- Designed, built, and documented automated reporting and workflow tools using Google Sheets and Apps Script, turning manual processes into guided systems for non-technical users.
- Built an Acadience parent-letter generator that reduced a multi-day reporting process to approximately 12 minutes, with guided setup, error handling, and reusable implementation documentation.
- Created training materials, process guides, and self-service resources, including a centralized Google Sites learning hub to support independent staff adoption.
- Designed an MTSS decision-support prototype using teacher survey data to structure intervention planning while preserving educator judgment.
- Mentored student teachers, provisionally licensed teachers, and paraprofessionals through coaching, structured tools, and professional learning.
- Translated assessment, intervention, and compliance information into clear guidance for administrators, specialists, educators, and families.

Behavior Intervention Specialist

Aug 2018 - May 2019

Fiddler's Canyon Elementary | Cedar City, UT

- Supported schoolwide PBIS implementation by developing procedures, documentation, implementation tools, and large-format visual systems for classrooms and shared spaces.

Computer Science Teacher / Paraprofessional

Aug 2017 - May 2018

Fiddler's Canyon Elementary | Cedar City, UT

- Planned and delivered computer science and digital-citizenship instruction and supported schoolwide technology adoption through standards-aligned activities.

Administrative Assistant / Bid Coordinator

Sep 2015 - Feb 2017

Integrity Supply / Desert Lumber-USLBM | Cedar City, UT

- Led DocuSign implementation, modernizing contract workflows and improving turnaround time and document visibility.
- Built a margin-tracking spreadsheet that calculated average profit margin across bid projects, giving leadership visibility into project profitability and margin targets.

Earlier Operations & Systems Experience

Prior experience

Emergency Essentials and related independent contract support

- Redesigned a growing catalog mailing operation from manual, in-house label application to a higher-capacity vendor-supported production and mailing process.
- Implemented postal-process improvements including barcodes, NCOA service, mailing-software outputs, and optimized postal entry to reduce postage costs and improve address quality.
- Partnered with a software vendor during a DOS-to-Windows CRM/order-entry transition, helping define automated address-update behavior from NCOA files and Mailers+4 outputs.
- Continued as an independent contractor after departure to maintain customer address data remotely.

SELECTED PORTFOLIO PROJECTS

Acadience Letter Generator: Google Sheets + Apps Script workflow converting benchmark assessment data into per-teacher parent-communication packets.

MTSS Decision-Support System: Human-in-the-loop tool concept using teacher survey data to structure intervention goal drafting while keeping educator review central.

Paraeducator PD Hub: Google Sites learning hub built to provide structured onboarding, training, and classroom-support resources.

EDUCATION, LICENSES & PROFESSIONAL DEVELOPMENT

M.S., Curriculum & Instruction, Western Governors University, 2025 | **B.A., Special Education K-12, Dual Licensure Elementary Education**, Western Governors University, 2019

Utah Professional Educator License | EdTech Endorsement | ESL Endorsement | LETRS (Science of Reading) | Modern Classrooms Project
